**Re: Treasure Island - Manhattan Dump On-Site Assessment
OHD 980 611 305**

Dear Mr. Phouts:

PRC Environmental Management, Inc. (PRC), has been retained by the U.S. Environmental Protection Agency (EPA) Region 5, under Contract No. 68-W8-0084, to evaluate and assess candidate sites for the National Priorities List under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) and the Superfund Amendments and Reauthorization Act (SARA). PRC is conducting these evaluations under the supervision of Ms. Jeanne Griffin, EPA Region 5 Work Assignment Manager.

Information supplied to EPA through CERCLA notifications, as required by Section 103(c) of CERCLA, has identified the Treasure Island - Manhattan Dump location as a possible candidate for a sampling investigation. As part of the evaluation, EPA has requested that PRC perform an on-site assessment which has been scheduled for 10:00 a.m. on Tuesday, January 26, 1993. A follow up visit may be scheduled in the near future to conduct sampling activities. Photographs will be taken during both visits to document site conditions and activities.

PRC has completed a preliminary records search for available information. However, we request that you be available to answer any additional questions during the on-site assessment to assure that all information is complete and accurate. Access to any relevant maps, diagrams, hydrogeologic reports, environmental assessment reports, sampling data sheets, environmental permits, manifests, and correspondence is also necessary to complete the assessment.

Kristine Kruk and Keith Grezlik of PRC will participate in the site visit. Representatives of the Ohio Environmental Protection Agency (OEPA) and EPA will also be invited to participate in this visit.

If you require additional information, please call me at (312) 856-8700.

Sincerely,

Kristine Kruk
Environmental Scientist
